Introduction

We define special services as those aimed at professionals or companies that require the exclusive use of a **TMB** asset for a limited period of time. These services are always on a one-off basis and always different, and they are custom-designed according to the needs and conditions of each case.

Several departments of the **TMB** are involved in special services, including operations, railway safety, civil protection, occupational risk prevention, legal, and insurance. For this reason, the management time can vary greatly depending on the services requested. From one to three weeks for the simplest to three or more weeks for the most complex.

To be able to perform a special service, it is necessary to:

- 1. Have a civil liability insurance policy.**
- 2. Fill in a business activities report, which details, among other things:**
 - Compliance with TMB security protocols and regulations.
 - Identification of individuals involved on the day of the service (72 hours before it, at the latest)
- 3. Make payment in advance (at least 7 working days before the date the service is to be carried out)**

The prices and conditions for services listed in this document are reviewed and updated annually and do not include the corresponding VAT.

Discounts for Audiovisual Events depending on the volume of hours:

- 10% (from 10 to 20 hours of filming or event)
- 15% (from 20 hours of filming or event)

For the calculation of the total amount of each service, the corresponding hours of the workers of the different TMB departments involved in the service will be added, both in its analysis and in its performance.

Technical visits

These are work meetings, each lasting one hour and limited to six people. Visitors can take photographs and measurements of our vehicles or facilities, respecting image rights and privacy, always accompanied by TMB technical staff.

Technical visits also involve several TMB departments, so their management time may vary depending on the space or vehicle requested. This may range from a minimum of one week to two or more weeks.

A technical visit costs €258 and will be deducted from the total cost of the service. If more than one technical visit is made, only the cost of the first visit will be deducted.
